TPN's hot deal with Weber!

The **Pallet Network (TPN)**, one of Ireland's leading freight, transport and logistics services provider, recently signed a contract worth €750,000 with Weber UK & Ireland. The three-year deal will see Weber use **TPN** and their member network to store, ship and distribute all of its products and supplies to its Irish customer base nationwide, including leading DIY centres, hardware stores and garden centres. Weber Barbeques is the world's premier manufacturer of charcoal, gas and electric grills, grilling accessories and other outdoor room products. The company has grown its Irish business by 50% over the last three years.

Brendan Dunne, Weber's Sales Manager, commented, "Our amazing progress over the last few years is due to the quality and range of our products and in no small way to the superb logistics services provided by **TPN**. Our clients now know that when they order stock they will receive the correct products on time every time in a presentable condition."
